

Kellermann Atto® DF Integral:

The world's smallest indicator, rear and brake light combi now available as built-in!

The Kellermann GmbH (www.kellermann-online.com), experts for premium motorcycle accessories from Aachen in Germany, presents a radical new version of the highly successful Atto® DF: The Atto® DF Integral is the worlds smallest indicator, rear and brake light combination ready for built-in.

The Atto® DF Integral is the first built-in version from Kellermann, it can be fully integrated into the fairing or other components. The slim casing almost fully disappears and gives the desired 'clean look' when it comes to customizing. The Atto® DF Integral follows consequently the tradition of Kellermann to minimize and style!

Together with the Atto® DF Integral Kellermann presents a new range of ready to built-in versions, at the same time as the 3in1 combination the Atto® will also be launched as indicator only and rear and brake light integral versions:

All Atto® Integral versions at a glance:

Atto® DF Integral (indicator, rear and brake light combination)

Atto® Integral (indicator)

Atto® Dark Integral (indicator with strongly tinted glass)

Atto® RB Integral (rear and brake light)

Atto® RB Dark Integral (rear and brake light with strongly tinted glass)

The complete technology is integrated into the casing, no components are added to the wiring. And as it is well known from Kellermann the new built-in versions flash with extra strong illumination power for more safety. As always, the Atto® Integral series has full ECE approval and is completely street legal.

Atto® Integral series features:

- Completely new styling options
- Sensationally small – spectacularly bright
- EXtranz® - Extreme Optical Transparency Technology
- Kellermann HighPower LED Technology
- Long Life Protection Guard®, IC operated, 330 kHz
- High quality metal housing
- Suitable for 12 volt DC applications
- European design protection

Kellermann – High quality motorcycle products – Made in Germany

Kellermann company profile:

The Kellermann company (www.kellermann-online.com) from Aachen, Germany, is a manufacturer of high quality motorcycle accessories. The company is one of the market leaders in the segment of high tech indicators for motorbikes. In the motor bike scene the noble products are true cult and only referred to as 'Kellermann's'.
